

Webinar for applicants

1st Call «Supporting the Future of Animal Health and Welfare»

14th May 2024; 10:00 - 12:00 CEST

Agenda

I. Introduction to the Joint Call

II. EMA and EFSA remarks on the first call

III. Important conditions and requirements (eligibility, participating countries and proposal outline incl. Timeline)

IV. Partner Search Tool

V. How to submit a proposal via the submission tool

VI. Evaluation of proposals

VII. Q & A

Agenda

I. Introduction to the Joint Call

II. EMA and EFSA remarks on the first call

III. Important conditions and requirements (eligibility, participating countries and proposal outline incl. Timeline)

IV. Partner Search Tool

V. How to submit a proposal via the submission tool

VI. Evaluation of proposals

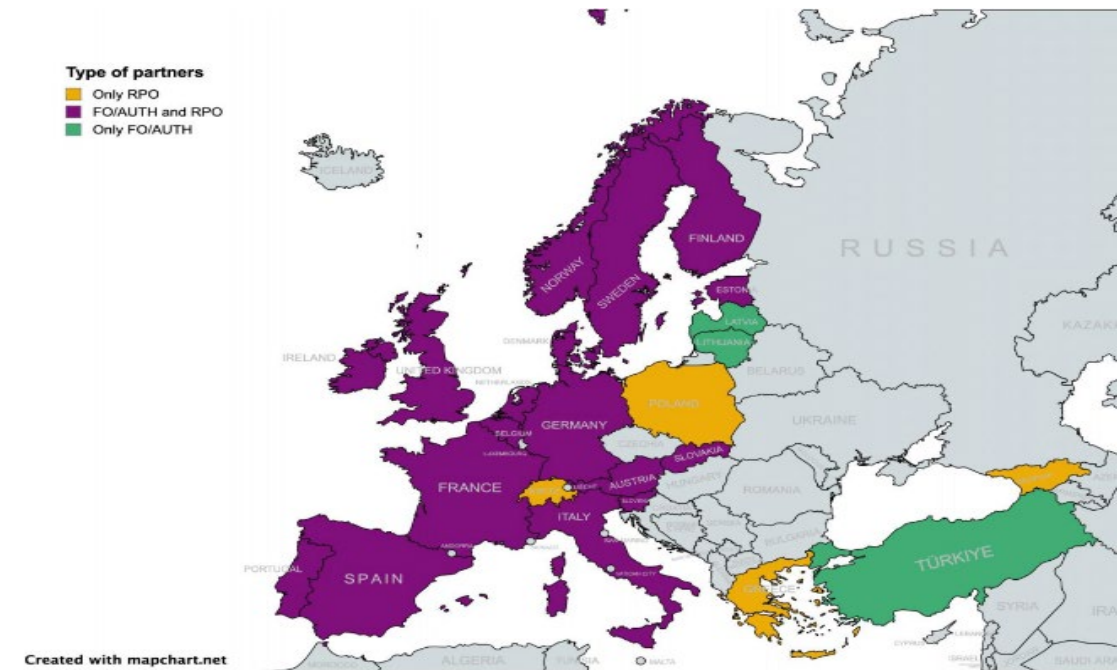

VII. Q & A

European Partnership Animal Health and Welfare (EUPAHW/EUPAH&W)

- is anticipated to invest €360 million over seven years
- Partnership has brought together 90 entities (research-performing organisations, funding organisations, and ministries), including EFSA and EMA, from 24 countries (19 EU Member States and 5 countries associated to Horizon Europe).
- Partnership has an internal program includes 56 leading RPOs
17 three-year research projects carried out internally, which start in 2024

****And External Research Calls

European Partnership Animal Health and Welfare (EUPAHW/EUPAH&W)

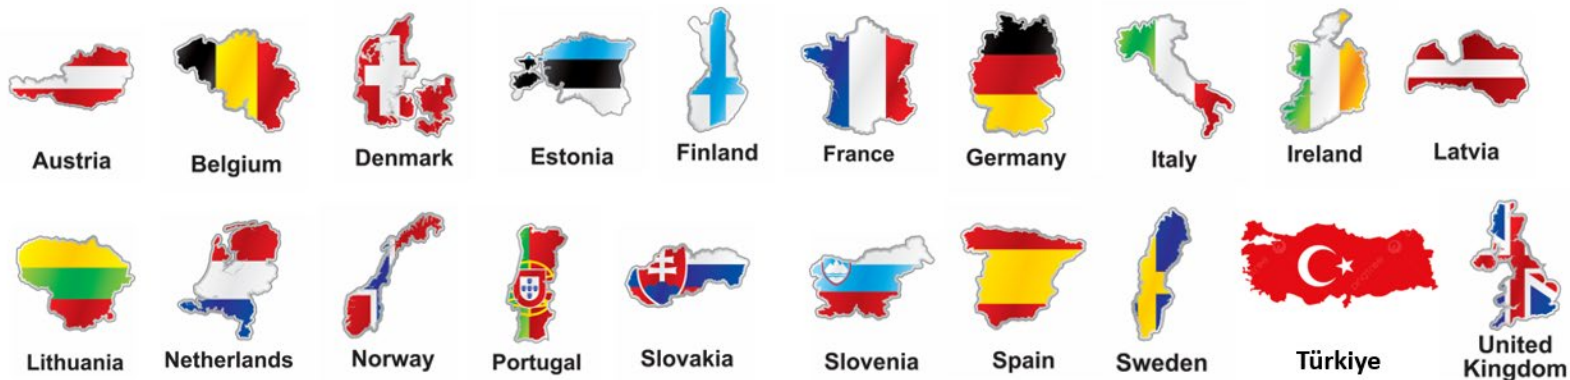

- The Partnership is based on a **Strategic Research and Innovation Agenda (SRIA)** → which has been developed over a two-year period, and involving all relevant actors.
- The SRIA balances short term applied and strategic research. Infectious diseases, both of terrestrial and aquatic animals, and zoonotic risks, together with research to improve animal welfare.
- The Partnership also focuses on the prudent use of antimicrobials and ensuring that a high level of animal welfare is provided in every phase of an animal's life.

EUPAHW First Joint Call-2024

«Supporting the Future of Animal Health and Welfare»

- is including 30 Funders from 20 countries
- Total budget: 24,603,000 (FO) +6,777,000 Euros (EC)

Five priority areas of EUPAHW, from SRIA

EUPAHW First Joint Call-2024 «Supporting the Future of Animal Health and Welfare»

aims to

- contribute to the main objectives of the EUPAHW and the research objectives of the partner FOs.

fifteen of the SRIA Research Actions, identified as priorities by partner FOs.

CO-FUNDED CALL FOR PROPOSALS

“Supporting the Future of Animal Health and Welfare”

Deadline for submission of pre-proposals:

8th July 2024, 15:00 CEST

This document announces the first transnational call on Animal Health and Welfare within the framework of the European Partnership Animal Health and Welfare (EUPAHW).

This project has received funding HORIZON-CL6-2023-FARM2FORK-01 under grant agreement No 101136346.

8th May 2024

EUPAHW webpage: www.EUPAHW.eu

Annex VI: List of SRIA Research Actions addressed by this call

The following Research Actions from the SRIA are due to be addressed by this call.

OO1 – Action 4. Surveillance of pathogens of veterinary importance (that are not covered in One Health calls) and their antimicrobial resistance profiles.

OO2 – Action 3. Adapt existing, or develop new methodologies to integrate genomic surveillance data in risk assessment for the integrated use of epidemiological and genomic data.

OO3 - Action 1. Gain knowledge on priority pathogens (i.e. bacteria, parasites, viruses, fungi, prions, including resistance patterns) and infectious diseases responsible for important economic losses or high risk of transmission to humans, and their detection methods (including metagenomics approaches, molecular markers of interest, etc.) with the aim to identify possible diagnostic markers.

OO3 - Action 2. Development, optimisation and standardisation of reliable, faster, potentially automatable and/or scalable direct (antigen/genome amplification/detection) and indirect (detection/immune response) assessment tools/technologies; tools for the rapid detection of drug-resistant bacteria, viruses, fungi or parasites; on-farm, pen-site diagnostics for pathogens and antimicrobial resistance; focus on priority pathogens and those that do not have EURL.

OO3 - Action 3. Development, optimisation and standardisation of tools to distinguish between (i) infected and vaccinated individuals (DIVA) as well as (ii) presence of unviable or infectious pathogens to study the pathogens' survival in the environment or in effluents and (iii) to study inter-species (including wild animals) circulation of pathogens or resistant variants.

OO4 - Action 2. Development of technologies on the slaughter line to assess animal welfare on farm and/or during transport. Identification of suitable ABM with appropriate level of validity.

EUPAHW First Joint Call-2024 «Supporting the Future of Animal Health and Welfare»

aims to

enhance animal health and welfare by supporting innovative research to develop novel and improved technologies and addressing fundamental and socioeconomic science questions related to the prevention, detection, assessment, and management of animal health and welfare issues of both terrestrial and aquatic animals.

EUPAHW First Joint Call-2024 «Supporting the Future of Animal Health and Welfare»

Topic 1: Novel Technologies for Prevention, Detection, Assessment, and Management of Animal Health and Welfare

This topic includes research projects that concentrate on creating and advancing innovative technologies to enhance AH&W.

- genomic surveillance of health and improved disease diagnostic methods to novel or improved vaccines and vaccine platforms
- new technologies aimed at monitoring and improving animal welfare could for instance include the creation of sensors, decision support tools, or innovative animal husbandry and aquaculture systems.

EUPAHW First Joint Call-2024 «Supporting the Future of Animal Health and Welfare»

Topic 2: Fundamental Research for Animal Health and Welfare

This topic involves research to advance scientific knowledge and understanding of the biological, immunological, and physiological mechanisms influencing terrestrial and aquatic AH&W.

- increasing knowledge of priority pathogens (bacteria, parasites, viruses, fungi, or prions responsible for important economic losses or high risk for transmission to humans),
- interactions with the host microbiome, diagnostics, immunology,
- basis of welfare indicators

Topic 3: Animal Health and Welfare and Society

This topic covers social, economic, or ethical studies that examine how pathogens, novel technologies or improved animal welfare might impact farmers, fishers, aquaculture producers, consumers, or the production chain.

It would also cover studies focusing on human behaviour with respect to biosecurity, perception of welfare and impacts on demand, and communications with farmers and producers to improve awareness and acknowledgement of AH&W (i.e. to improve acceptability of policy, to facilitate a transition to sustainable production).

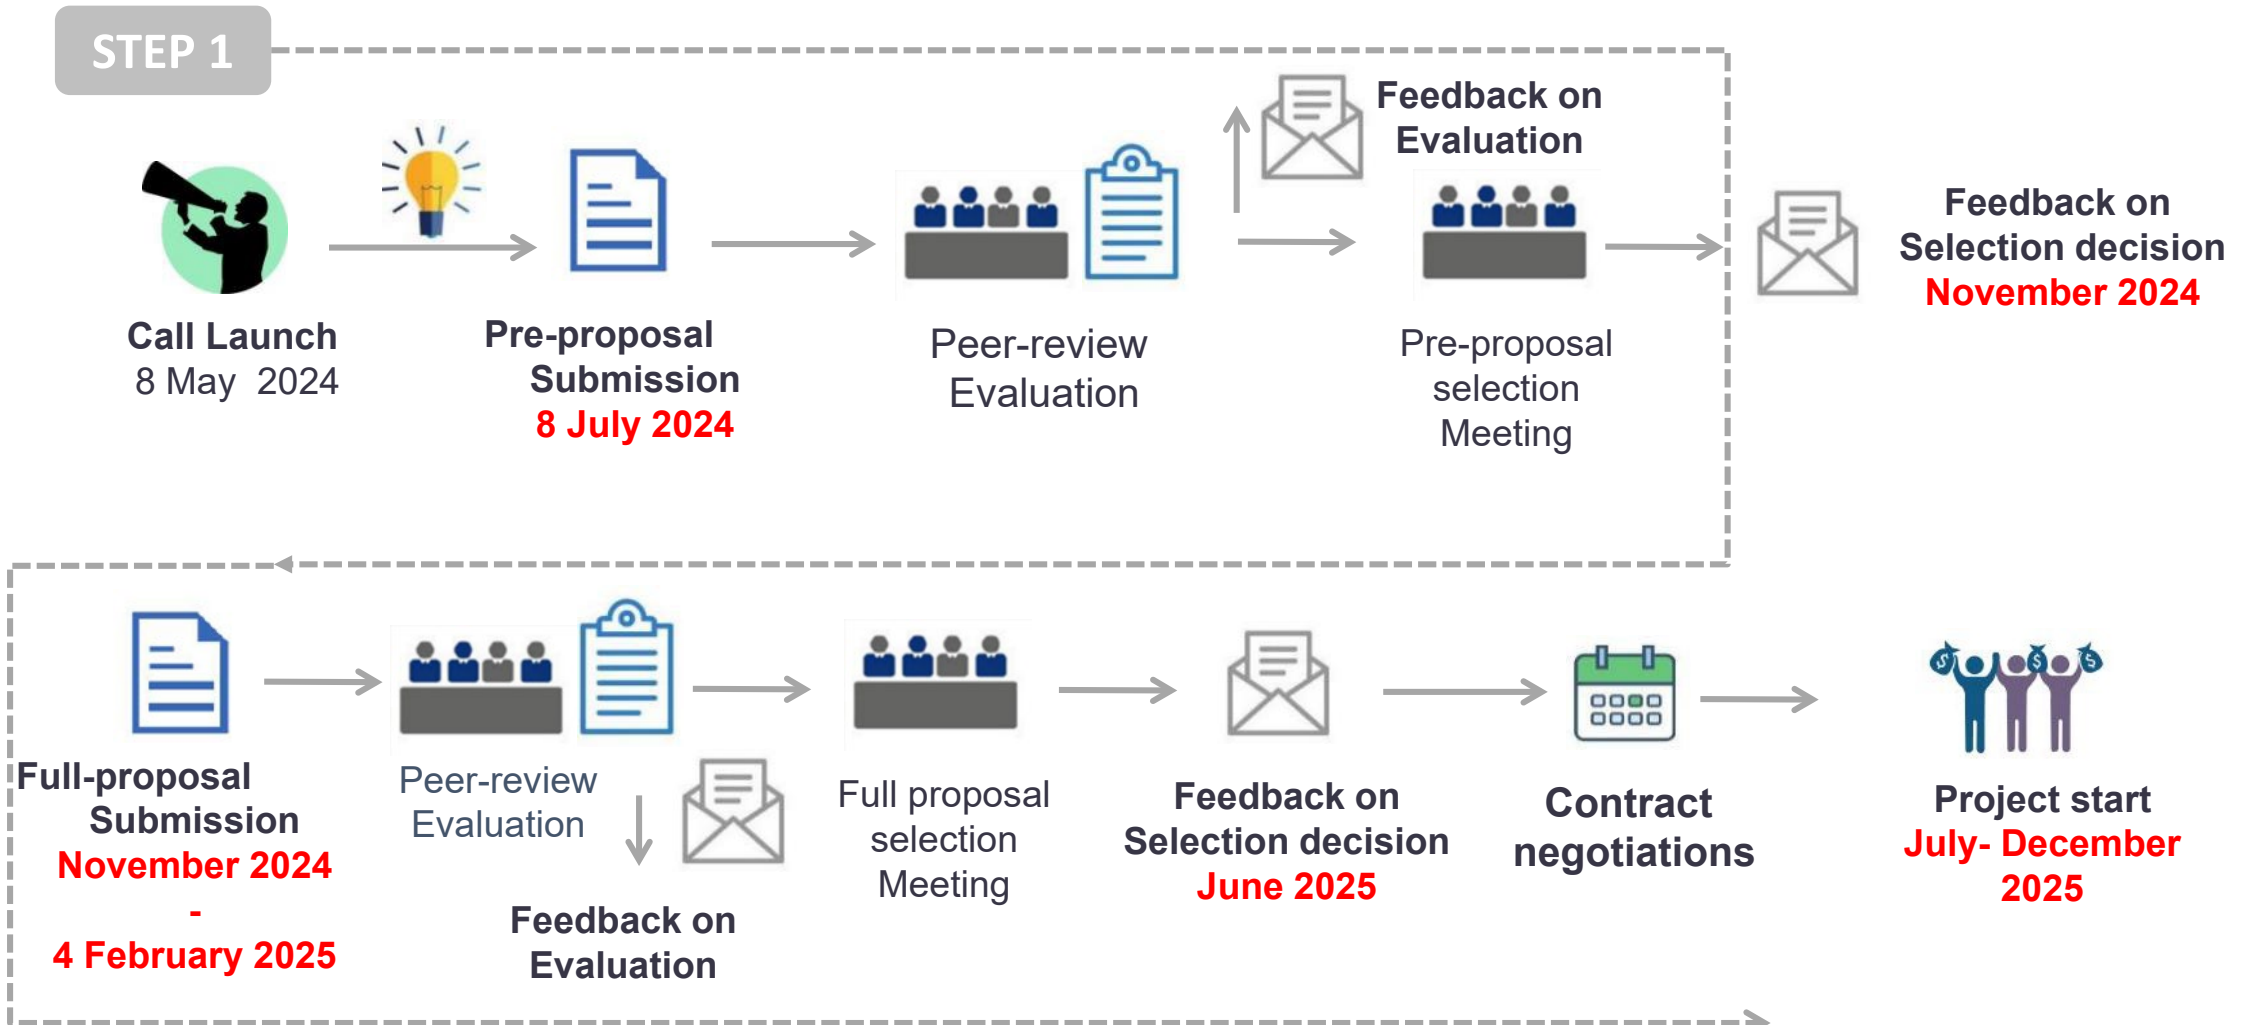

EUPAHW First Joint Call-2024 «Supporting the Future of Animal Health and Welfare»

Exclusions:

- Improving human health
- Companion animals
- Food-borne pathogens
- AMR focusing specifically on public/human health
- Socio-economic projects that do not integrate animal health and/or welfare
- Development of new antimicrobials

Timeline

Funding opportunities

Country	Funding Organisation	National/regional call contribution		Topic		
		Total [€]	maximum per project [€]	1	2	3
Austria	FWF	1,500,000		Y	Y	Y
Belgium	F.R.S.-FNRS	300,000	300,000 per project for 3 years	Y	Y	Y
Belgium	FIO	800,000		Y	Y	Y
Belgium	FPS Health	400,000	133,000	Y	Y	N
Belgium	FWO	700,000	350,000	Y	Y	Y
Denmark	IFD	1,000,000	300.000 per partner 500.000 for all if there are two or more Danish partners	Y	Y	Y
Estonia	ETAG	100,000 or 300,000*	300,000 if coordinator, 100,000 if participant	Y	Y	Y
Estonia	REM	100,000	100,000	Y	Y	Y
Finland	MMM	400,000	300,000 if coordinator, 200,000 if participant	Y	Y	Y
France	ANR	2,000,000	400,000 if coordinator, 300,000 if participant	Y	Y	Y
Germany	BMEL/BLE	1,500,000	300,000	Y	Y	Y
Ireland	DAFM	1,000,000	*	Y	Y	Y
Ireland	TEAGASC	248,000	*	Y	Y	Y
Italy	MASAF	300,000	300.000 per project Max per partner: 160,000 if coordinator, 140,000 if participant	Y	N	Y
Italy	MOH	500,000	300,000 if coordinator,	Y	Y	Y

Country	Funding Organisation	National/regional call contribution		Topic		
		Total [€]	maximum per project [€]	1	2	3
Italy	MUR	2,000,000	300,000 (min. amount 100,000)	Y	Y	Y
Latvia	LZP	500,000	100,000 per 1 project year per 1 partner	Y	Y	Y
Lithuania	LMT	300,000	200,000 if coordinator, 150,000 if participant	Y	Y	Y
Lithuania	ZUM	120,000	120,000	Y	Y	Y
Netherlands	MINLNV	2,000,000	350,000 if coordinator, 300,000 if participant	Y	Y	Y
Norway	RCN	1,480,000	350,000 for terrestrial animals research 200,000 for aquatic animals research	Y	Y	Y
Portugal	FCT	500,000	200,000 if coordinator, 100,000 if participant	Y	Y	Y
Slovakia	MARD	105,000	105,000	Y	Y	Y
Slovenia	MKGP	350,000	200,000	Y	N	Y
Spain	AEI	1,000,000	275,000 if coordinator, 175,000 if participant	Y	Y	Y
Spain	CDTI	500,000		Y	Y	Y
Sweden	FORMAS	2,000,000	500,000 if coordinator, 300,000 if participant	Y	Y	Y
Türkiye	TAGEM	300,000	100,000 if coordinator	Y	Y	N
Türkiye	TUBITAK	600,000	200,000 if coordinator or private entity, 100,000 if participant	Y	Y	Y
United Kingdom	DEFRA	2,000,000	750,000	Y	Y	Y
Total		24,603,000				

Agenda

I. Introduction to the Joint Call

II. EMA and EFSA remarks on the first call

V. How to submit a proposal via the submission tool

VI. Evaluation of proposals

VII. Q & A

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

Regulatory Science, Regulatory Support & Recommendations

First External Call EUP AH&W, Webinar for Applicants, 14 May 2024

Presented by Ana Vidal and Mark Goldammer
Veterinary Division

An agency of the European Union

Outline

Introduction

- 1. EMA RSS to 2025 – Veterinary Goals
- 2. Veterinary Regulatory Science Research Needs

Regulatory Support, Recommendations & Tips

- Scientific guidelines for veterinary medicines
- How to approach?
- Recommendations, Tips & EMA's SME Office
- ITF Briefing Meetings & CVMP Scientific Advice

What we do

Protect human and animal health

Facilitate development and access to medicines

Evaluate applications for marketing authorisation

Monitor the safety of medicines across their life cycle

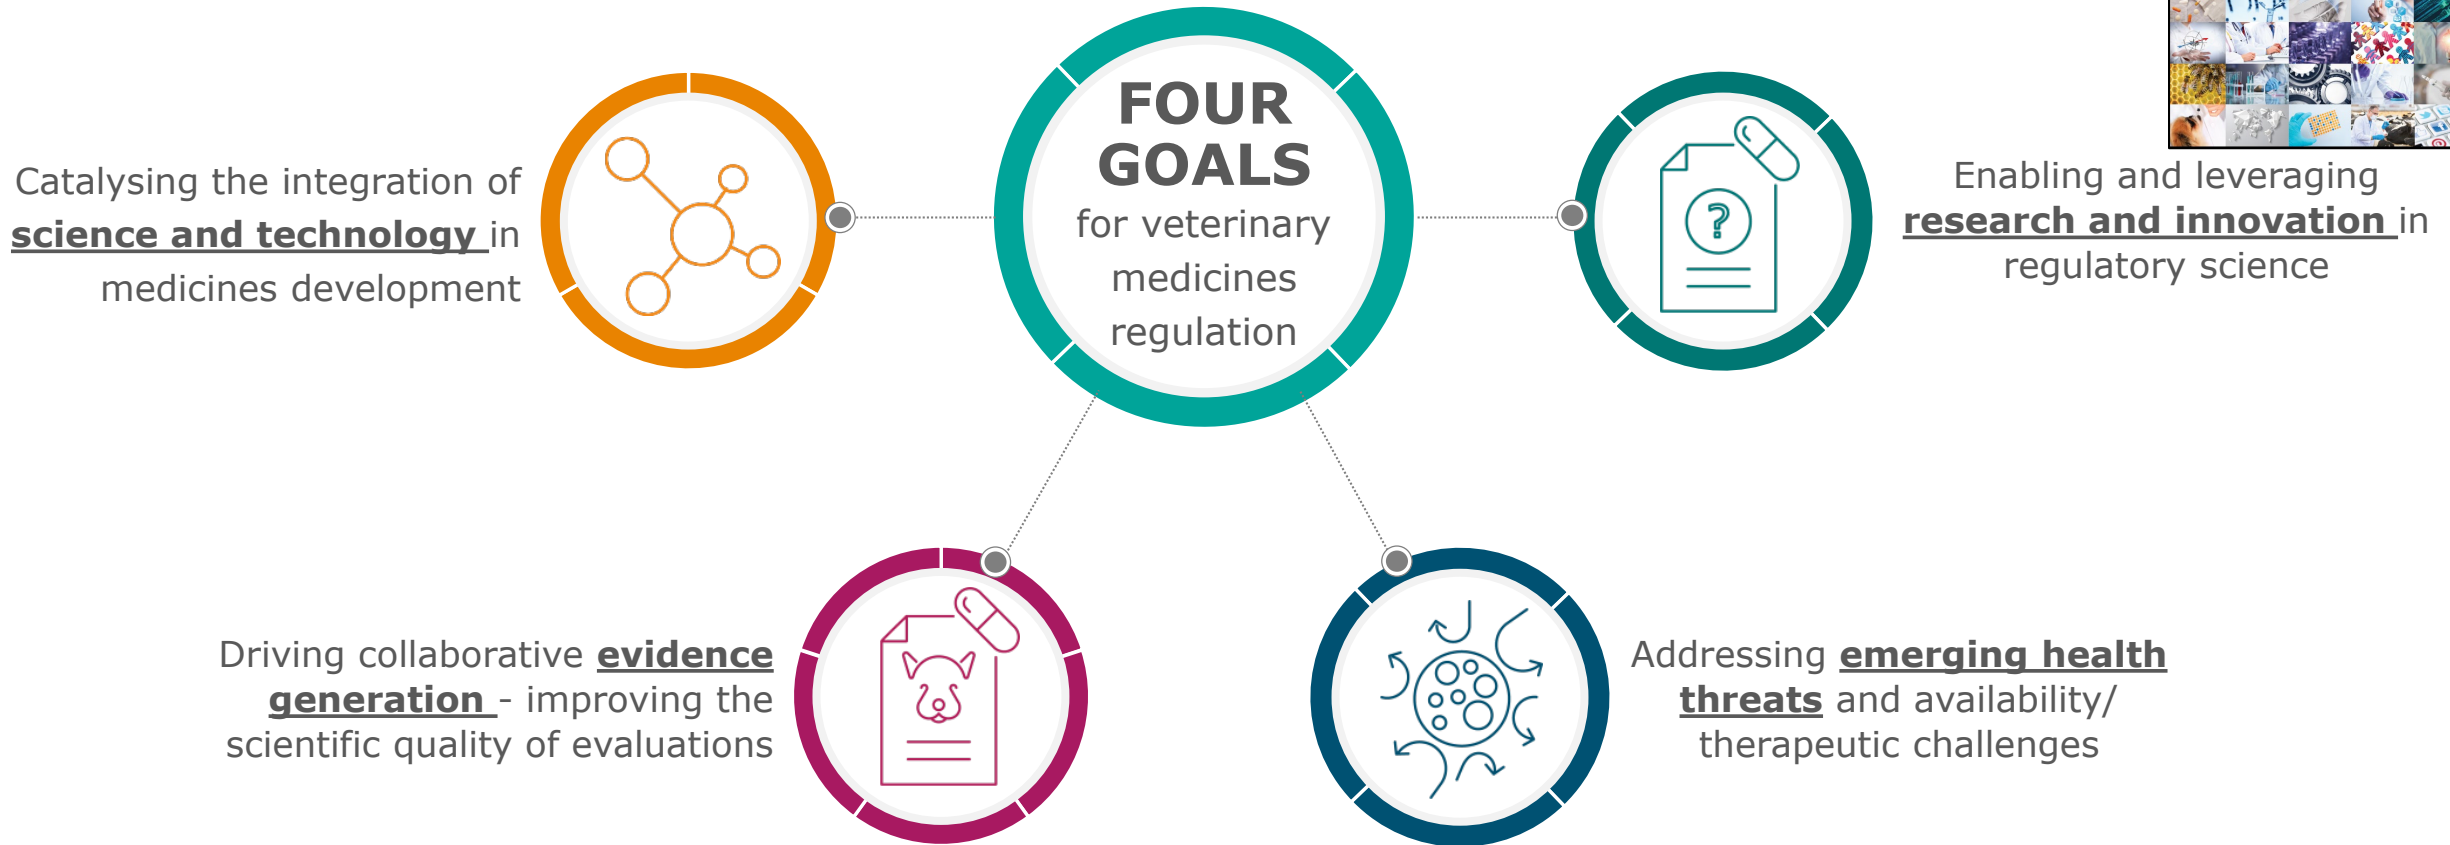

Provide reliable information on human and veterinary medicines to patients and healthcare professionals

EMA Regulatory Science Strategy to 2025

Veterinary Regulatory Science Research Needs

Emerged from stakeholder consultation that underpinned the RSS to 2025

Organised according to core recommendations (RSS)

Specified with topic details, objectives and anticipated impact

Inspired by what some National Competent Authorities have already implemented

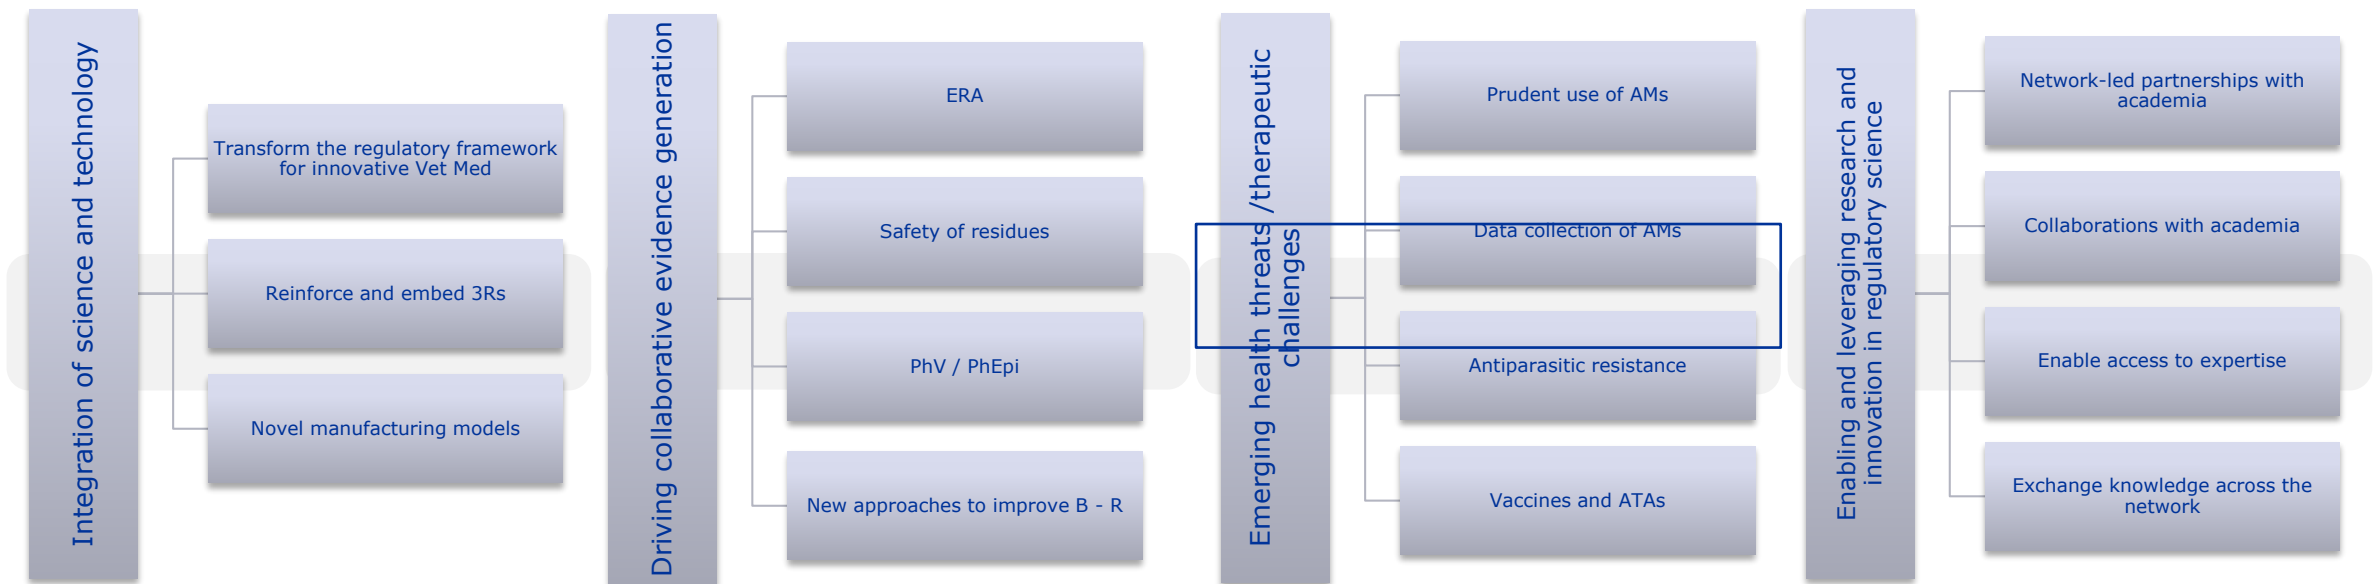

More than 100 research questions: Human (80+) and veterinary (40+)

[Regulatory science research needs list - version 1.0 \(europa.eu\)](https://europa.eu)

Veterinary Regulatory Science Research Needs

What are the needs?

[Regulatory science research needs list - version 1.0 \(europa.eu\)](http://europa.eu)

Regulatory Support & Recommendations

If focussing on (i) development/authorisation of VMPs¹/vaccines, or (ii) methods & tools to be used with or for (authorised) VMPs

Scientific guidelines for veterinary medicines² (SGLs)

->To be taken into account from the early planning phase

Examples:

- (i) The definition for starting materials (defines applicability of GMP): Important for planning of the manufacturing process; later changes may imply repetition of studies etc.
- (ii) SGLs relevant for the development of methods for the quantification of (biological) substances or evaluation of efficacy: Acceptance by CVMP³ is a prerequisite for efficient and successful development

SGLs are not legally binding, however, deviations should be very well justified

¹ VMPs (veterinary medicinal products): As defined by the Regulation (EU) 2019/6 (<https://eur-lex.europa.eu/eli/reg/2019/6/oj>)

² SGLs (scientific guidelines for veterinary medicines): <https://www.ema.europa.eu/en/veterinary-regulatory-overview/research-development-veterinary-medicines/scientific-guidelines-veterinary-medicines>

³ CVMP (Committee for Veterinary Medicinal Products): <https://www.ema.europa.eu/en/committees/committee-veterinary-medicinal-products-cvmp#:~:text=The%20Committee%20for%20Veterinary%20Medicinal,medicines%20in%20the%20European%20Union.>

How to approach?

A common/generic workflow:

1. Identification of all relevant SGLs
2. Check planning against SGL requirements
3. Address all relevant SGL requirements
 - i. Identification of open questions and
 - ii. needs for clarifications & deviations
4. Preliminary PoC¹
5. Request for 1st ITF BM² / CVMP SA³

While for the early planning phase only a few SGLs may be relevant, the number of applicable SGLs may rise e.g. when reaching next TRLs⁴ during VMP development.

¹ Preliminary PoC (Proof-of-Concept): E.g. for an ITF BM, preliminary data (studies) would be very useful as a base for the discussion

² ITF BMs (EMA Innovation Task Force briefing meetings): For addressing scientific, legal, GMP-related and regulatory issues of emerging/innovative therapies & technologies.

³ CVMP SA (CVMP Scientific Advice): Advice on scientific aspects of the development (quality, safety & efficacy) of VMPs

⁴ TRLs (Technical Readiness Levels for VMPs), see Arnouts et al, 2022: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC9811140/>

Recommendations & tips for projects focussing on the development of VMPs or methods & tools to be used with or for VMPs

First Step: Include (just) a list of relevant SGLs in pre-proposal.

Second Step: Comprehensively address relevant SGLs in the full proposal.

Work plan: Take into account intended ITF BM(s) / CVMP SA and the time expected for the preparation.

In case one or more **CVMP Scientific Advice request(s)** planned: Funding for the applicable fees may be available via EUP AH&W, if the full-proposal is selected for funding (ITF BMs are free of charge).

In case one or more **SME partner(s)** are included in the consortium: Support via EMA's SME Office¹ may be available. An overview on available support is provided in the [SME user guide](#).

¹ SME (Small and Medium-sized Enterprise) Office – Contact/Information: <https://www.ema.europa.eu/en/about-us/support-smes>

EMA's ITF Briefing Meetings & CVMP Scientific Advice

For requesting an ITF Briefing Meeting or EMA Scientific Advice:

- Contact EMA's ITF¹ or CVMP Scientific Advice² Secretariat
- The secretariat will explain requirements for preparing the briefing document & questions (ITF BM) or requirements for preparing the request and questions for the CVMP Scientific Advice

Please Note: Do not request for ITF BMs/CVMP SA before the funding decision has been received. However, after positive funding decision, timely scheduling of a 1st ITF BM/CVMP SA is recommended.

To be taken into account for the preparation of the briefing document/request and questions:

- Address feedback from expert evaluators, received after pre-proposal / full proposal evaluation.
- Include available PoC data and/or studies (not mandatory, but, e.g. for ITF BM discussions very helpful)
- Questions should be comprehensive: provide all information/clarifications needed (until next ITF BM/CVMP SA)

¹ ITF Secretariat – Contact and requests via email (itfsecretariat@ema.europa.eu) or <https://register.ema.europa.eu/identityiq/home.html>

² CVMP Scientific Advice Secretariat – Contact and requests via email (vetscientificadvice@ema.europa.eu)

EFSA perspective on actions external call

Webinar EUP AH&W

KEY DRIVERS FOR EFSA

- Link to risk assessment & policy needs

All past & current mandates to EFSA are available in [OpenEFSA](#)

- Develop synergies with other ongoing (EU) initiatives
- Prevent overlap with other ongoing (EU) initiatives
- Create tangible impact

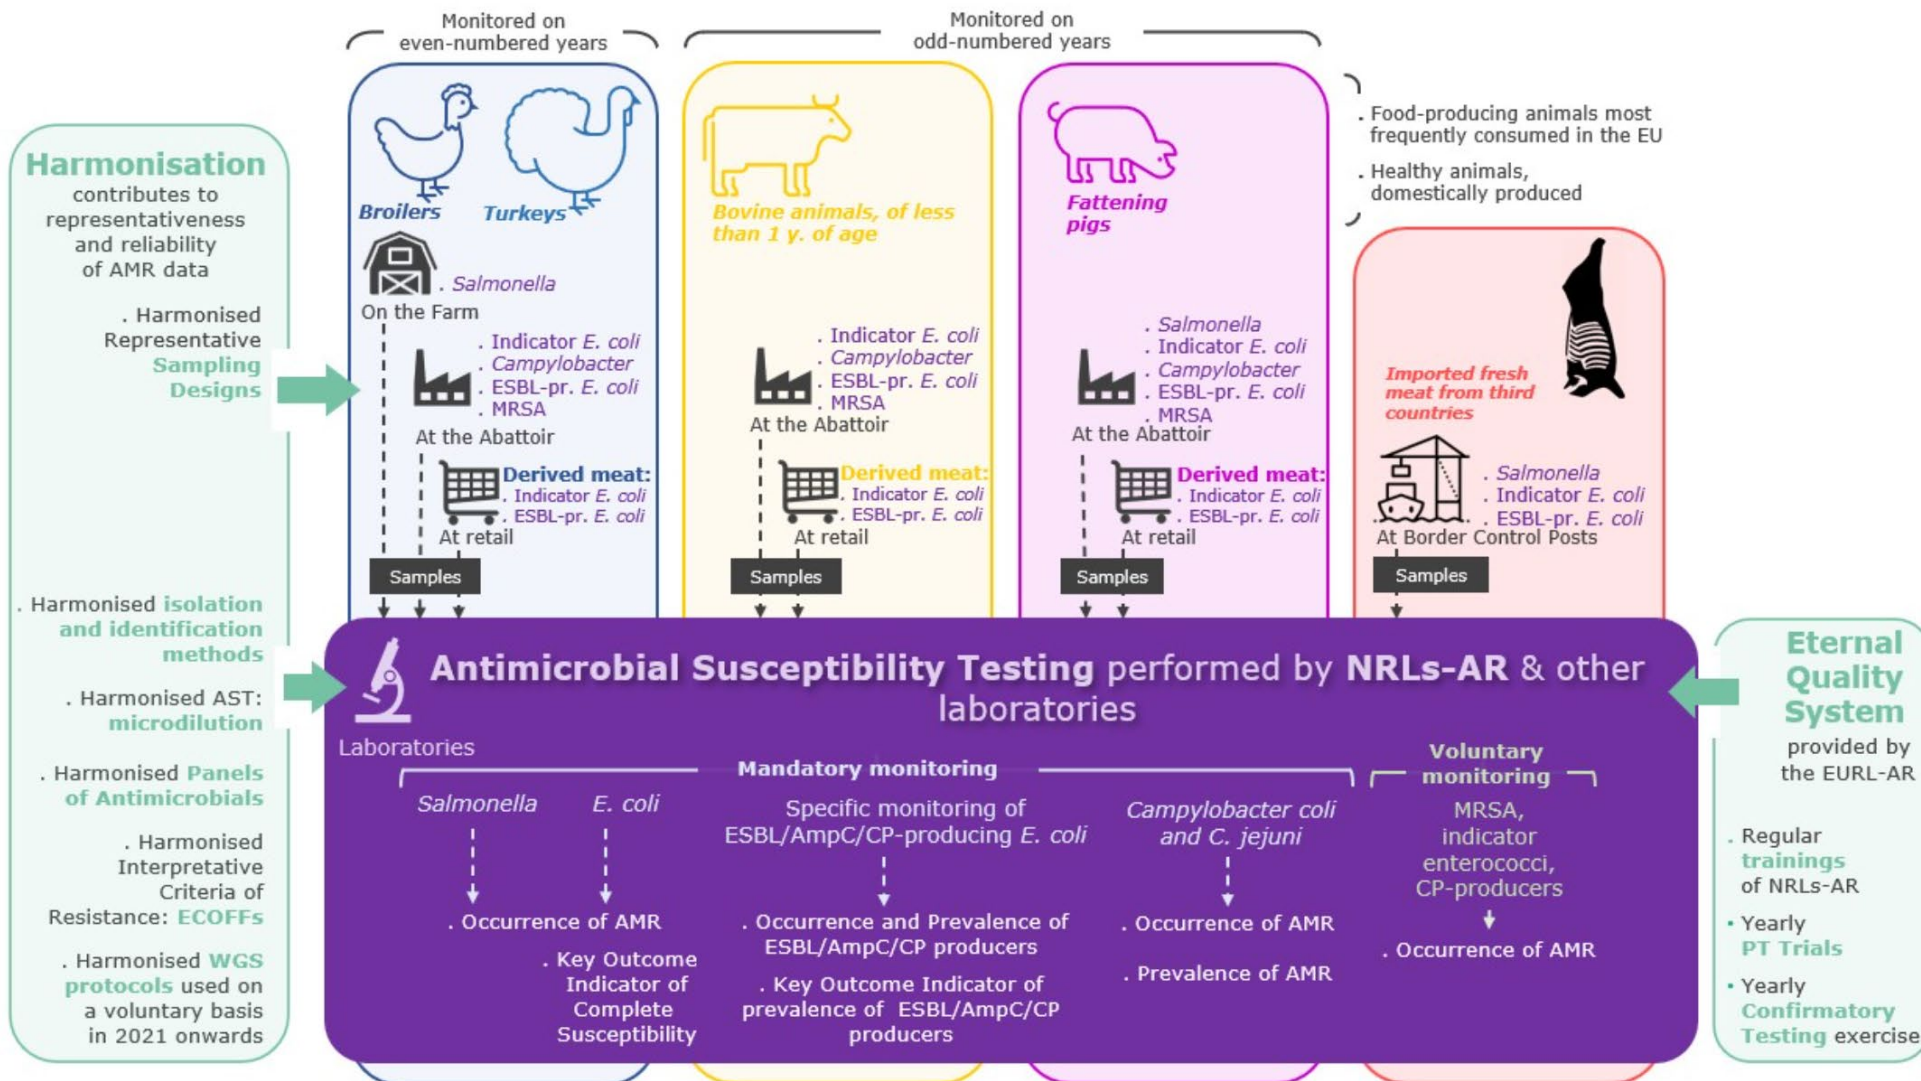

SURVEILLANCE OF PATHOGENS OF VETERINARY IMPORTANCE

OO1 – Action 4. Surveillance of pathogens of veterinary importance (that are not covered in One Health calls) and their antimicrobial resistance profiles.

AMR MONITORING IN ANIMALS AND FOOD IN THE EU

RESISTENT ANIMAL PATHOGENS

- EFSA published 9 scientific opinions on the most relevant bacteria in the EU:
 - *Staphylococcus pseudintermedius* in dogs and cats
 - *Rhodococcus equi* in horses
 - *Enterococcus faecalis* in poultry
 - *Enterococcus cecorum* in poultry
 - *Brachyspira hyodysenteriae* in swine
 - *Pseudomonas aeruginosa* in dogs and cats
 - *Staphylococcus aureus* in cattle and horses
 - *Escherichia coli* in in dogs and cats, horses, swine, poultry, cattle, sheep and goats
- There is no EU wide monitoring or surveillance in place
<https://storymaps.arcgis.com/collections/8bd946be685040ac91769480c70e891e?item=2>

GENOMIC SURVEILLANCE

OO2 – Action 3. Adapt existing, or develop new methodologies to integrate genomic surveillance data in risk assessment for the integrated use of epidemiological and genomic data.

GENOMIC SURVEILLANCE

- for the different diseases prioritised for surveillance
- mapping of the existing global databases for sequence data
- mapping of the publicly available tools that allow fast analysis and interpretation of the data
- EFSA will be collecting sequencing data on the following diseases:
 - Crimean Congo Fever
 - West Nile virus
 - Hepatitis E virus
 - Rift Valley Fever
 - Influenza viruses
 - Swine influenza
 - Lyme disease
 - Q-fever
 - metagenomic data for disease X (unknown, new pathogen)
- to further develop and enhance the EFSA-ECDC One Health Whole Genome System:

<https://www.efsa.europa.eu/sites/default/files/2022>

DIVA & ENVIRONMENTAL SAMPLING

003 - Action 3. Development, optimisation and standardisation of tools to distinguish between

- (i) infected and vaccinated individuals (DIVA) as well as**
- (ii) presence of unviable or infectious pathogens to study the pathogens' survival in the environment or in effluents and**
- (iii) to study inter- species (including wild animals) circulation of pathogens or resistant variants.**

DIVA & ENVIRONMENTAL SAMPLING

- DIVA is very relevant
- Detection of pathogens in the environment/effluents:
 - hypothesis to be tested are based on realistic scenarios (e.g. high sensitivity required for tools to be used in early detection)
 - data are required to compare sensitivity & specificity of different tools
 - relevant environmental samples are:
 - air swabs
 - dust
 - effluents from abattoirs, farms, hunting grounds
 - environmental samples
 - (water) sediments
 - (surface) water
 - surface swabs

TECHNOLOGIES TO ASSESS ANIMAL WELFARE

OO4 - Action 2. Development of technologies on the slaughter line to assess animal welfare on farm and/or during transport. Identification of suitable ABM with appropriate level of validity, sensitivity and specificity; development of in- line sensors, large scale data collection.

TECHNOLOGIES TO ASSESS ANIMAL WELFARE

- Develop in-line sensor technologies that measure animal-based measures (ABMs):
 - the protocol for measuring ABMs are developed with a view to facilitate harmonization amongst different countries
 - different slaughterhouse processes
 - establish a baseline of ABMs at the slaughterhouse (e.g. turkey)

ANIMAL WELFARE DURING TRANSPORT

OO4 - Action 6. Development of technologies to assess animal welfare during transport. Affordable and reliable solutions to prevent serious welfare problems through early detection of signals before and whilst in transit, e.g. lameness, lesions, heat stress, aggression, thirst or hunger, exhaustion, etc. Development of sensor technology, data analysis tools, data collection and integration platforms, decision support for the driver; related staff training.

ANIMAL WELFARE DURING TRANSPORT

- sensor technologies on the truck that can be used to monitor welfare during transport process
 - including preparation to transport, journey and arrival
 - with animal based measures (ABMs)
- Look at recommendations in the related EFSA opinions
<https://www.efsa.europa.eu/en/news/more-space-lower-temperatures-shorter-journeys-efsa-recommendations-improve-animal-welfare>

ANIMAL COGNITIVE CAPACITIES AND EMOTIONS

OO6 - Action 3. Perform research on how to improve animal welfare through better understanding of animal cognitive capacities and emotions adapted to each species' needs, opportunities for pain relief, and environmental enrichment technologies.

ANIMAL COGNITIVE CAPACITIES AND EMOTIONS

- understanding animal emotion as contingency descriptor
- development of experimental design that identifies which contingency controls animal behaviour.
- the methodology should allow to test
(e.g. environmental enrichment or pain relief works as intended)

IMPROVE ANIMAL WELFARE THROUGH HUSBANDRY SYSTEMS

OO6 - Action 6. Improve animal welfare through novel husbandry systems including innovative feeding and breeding strategies. Develop nutritional solutions to mitigate prolonged hunger and undesirable behaviours (e.g. broiler breeders, breeding sows) or metabolic and physiological problems (e.g. veal calves, high producing dairy cows). Address the relevance of genetics to reduce wide spread behaviour problems (e.g. tail biting, feather pecking), optimise breeding programmes for welfare (e.g. addressing piglet mortality, leg health issues in broiler).

IMPROVE ANIMAL WELFARE THROUGH HUSBANDRY SYSTEMS

- Look at recommendations in the related EFSA opinions:
 - pigs: <https://www.efsa.europa.eu/en/efsajournal/pub/7421>
 - broilers: <https://www.efsa.europa.eu/en/efsajournal/pub/7788>
 - laying hens:
<https://www.efsa.europa.eu/en/efsajournal/pub/7789>
 - calves: <https://www.efsa.europa.eu/en/efsajournal/pub/7896>
 - dairy cows:
<https://www.efsa.europa.eu/en/efsajournal/pub/7993>

BURDEN OF SELECTED PRIORITY DISEASES

- **OO9 - Action 1. Assess the economic and societal burden of selected priority diseases (including resistant pathogens), including their control (e.g. cost- benefit of different surveillance components and risk mitigation options).**

BURDEN OF SELECTED PRIORITY DISEASES

- focus on diseases not already covered by WP3 of the EUP AH&W or EFSA's procurement
- a cost-benefit analysis that incorporate vaccination as a control option would be very relevant

Agenda

I. Introduction to the Joint Call

II. EMA and EFSA remarks on the first call

III. Important conditions and requirements

IV. Partner Search Tool

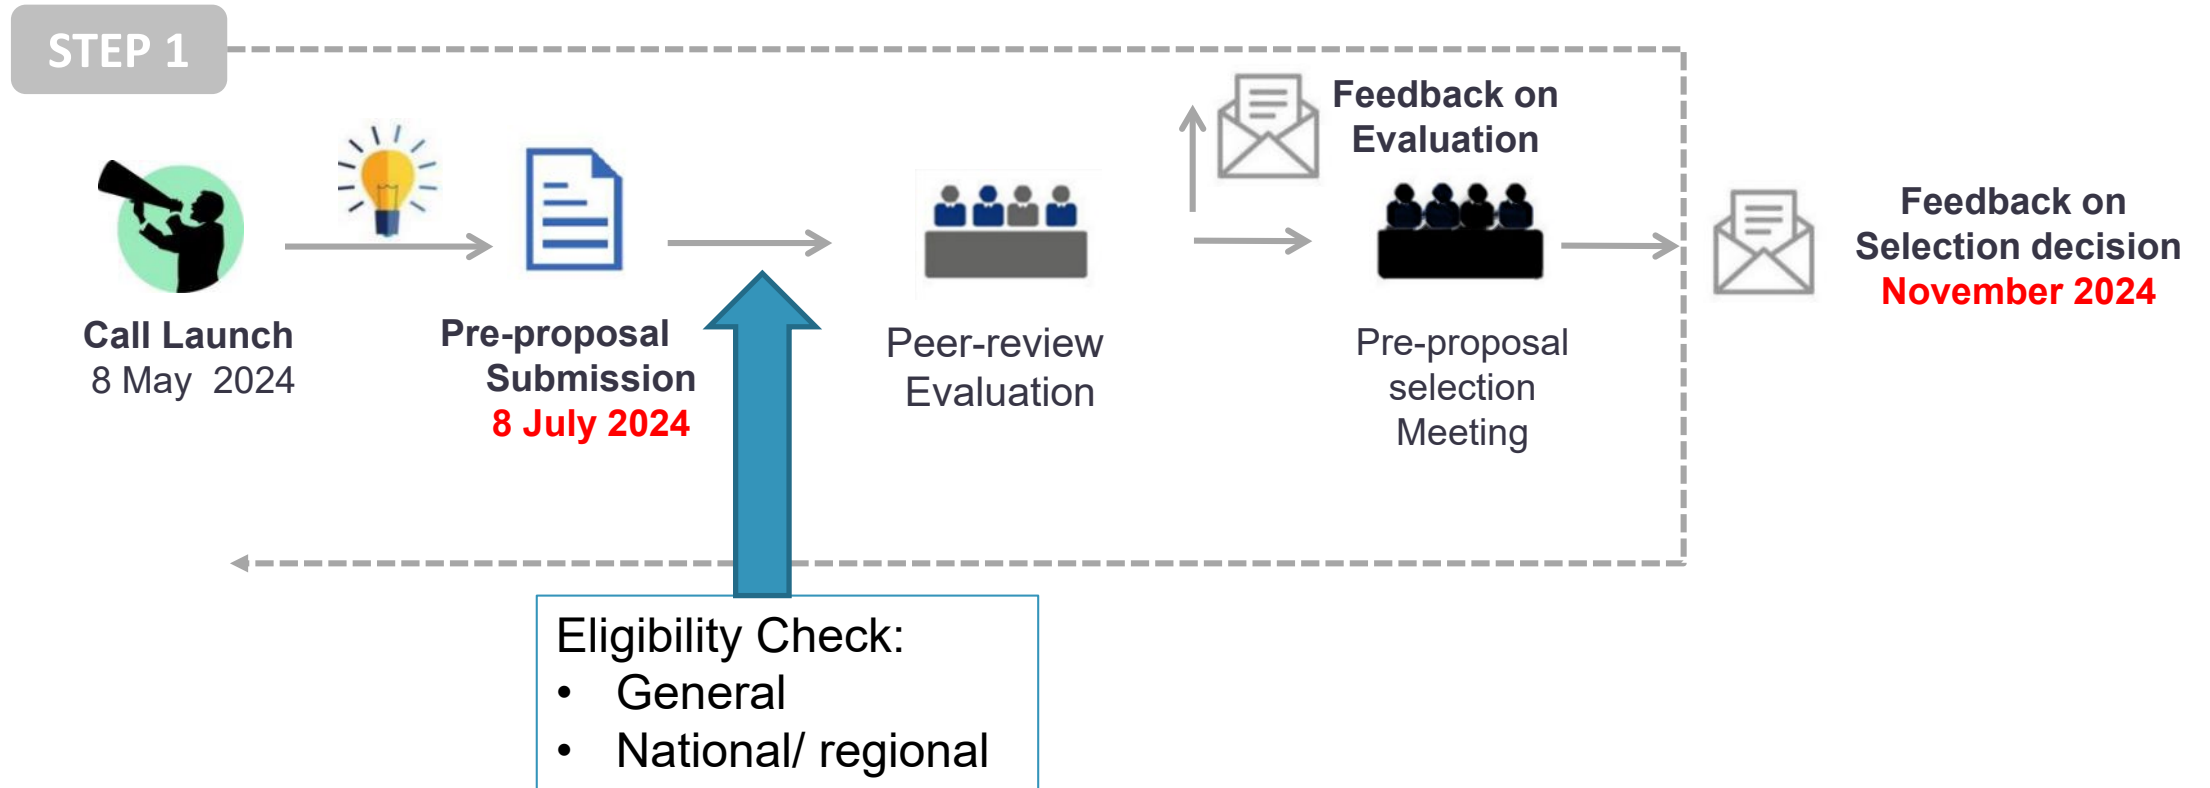

V. How to submit a proposal via the submission tool

VI. Evaluation of proposals

VII. Q & A

III. Important conditions and requirements

„Only proposals meeting national and general eligibility criteria will be considered for evaluation”

III. Important conditions and requirements: General Eligibility

Who can apply?

„Universities and other higher education institutions, public research institutions, non-profit organisations, consumers/citizens and civil society representatives and private companies can apply, **subject to the national/regional regulations and eligibility criteria (Annex VII).**

Partners ineligible to receive funding from any of the FOs can also be part of research consortia if they bring their own resources and submit an appropriate “Letter of Commitment” (see Annex V). However, these applicants cannot be the coordinator, and they will not count towards the minimum or maximum number of partners.

Research Performing Organisations (RPOs) that are beneficiaries of the EUPAHW and are interested in participating in external research calls are allowed to do so in cases defined in the Grant Agreement and **Annex II.**”

Eligibility Criteria:

- English
- Submitted before deadline (8th July 2024) via Online tool
- Project duration max. 3 Years / 36 Months
- If PI/Coordinator: The PI is only allowed to coordinate 1 Project (organisation can be Coordinating more than 1 with different PIs, please refer to CA for difference PI and Coordinator)
- If Partner in more than 1 Project: Name involved projects and Tasks
- In scope of the Call
- Also fulfilling all national/regional eligibility criteria
- Pre-proposal is mandatory, no full-proposal without pre-proposal
- Projects must follow the rules outlined under “consortium structure”.
- *Full proposals must submit a Communication and Dissemination Plan (Annex III) and a Data Management Plan (Annex IV).*

III. Important conditions and requirements: General Eligibility: Consortium Structure

Partner: Asking for funding **Associated Partner:** Not asking for funding, Letter of Commitment necessary!

Eligible Consortia (Coordinator counts as Partner)

- **Minimum 3** Partners from **3 different countries**, requesting funding (full partners) from a Funding organisation taking part in the call.
- **Maximum 8** (full) Partners requesting funding.
- **Associated partners** (not requesting funding) **are allowed** and **do not count** toward the Minimum or Maximum. An associated partner can only be a partner in a proposal, not coordinator of a proposal.
- **Total funding of partners in one country must not exceed 60% of the total funding budget of the proposal.**

Be really careful with your project consortium composition and better ask the call secretariat in case of doubt! If rules are not fulfilled, your project will be ineligible → No Funding!

III. Important conditions and requirements: General Eligibility: Consortium Structure

Eligibility of Partners that are also Beneficiaries of the EUPAHW:

Some beneficiaries of the Partnership are allowed to be part of an applying consortium (Annex II). However, the majority of funding for this call should be allocated to external parties. **Therefore, the total funding allocated to parties that are beneficiaries of the EUPAHW should be at most 35% of the total funding requested by the proposal consortium.**

FOR EACH PARTNER YOU NEED TO CHECK, IF THE PARTNER (Organisation) IS AN EUPAHW BENEFICIARY OR NOT. A LIST IS AVAILABLE IN ANNEX II.

MAKE SURE THAT AT LEAST 65% of the FUNDING is requested from Organisations external to the EUPAHW

III. Important conditions and requirements: General Eligibility: Examples

Consortium	Eligible	Reason	Comment 1	Check2
2 Partners, + 2 Associated Partners	No	Less than three partners!		
3 Partners from Austria, 1 from Estonia, + 2 Associated Partners	No	Less than three countries with full partners involved!		
9 Partners from 9 countries	No	More than 8 Partners!		
3 Partners from 3 Countries	Yes (but see Comment 1+2)	Minimum number of full partners fulfilled	Make sure that less than 60% of funding for one Country	Make sure that more than 65% of the Funding to Partners external to the EUPAHW
4 Partners from 3 Countries, + 3 Associated Partners	Yes (but see Comment 1+2)	All eligibility rules fulfilled		
8 partners from 5 Countries, + 2 Associated Partners	Yes (but see Comment 1+2)	All eligibility rules fulfilled		

III. Important conditions and requirements: National Eligibility

National eligibility criteria as described in the National Regulations:

READ the national ANNEX VII!

Please consider:

- Which Topic can be funded (Not all Funders fund all Topics!)
- Budget per project (Some Funders have budget limitations per project or per partner!)
- Who can apply for funding (research institutions, SMEs) differs from funder to funder
- Whether a submission of a national application is requested

Consult your Funding Contact Persons! (Annex I)

Make sure every Partner in your proposal contacts his/her Funding Contact Person!

In case one partner of a project consortium is not eligible, the Call Board may reject the entire proposal!

III. Important conditions and requirements: Call Budget

- Overall Call Budget: ~ 24.603 Mill € + EU Co-Funding
- Please be aware of different **maximum budget per project partner** --> It is also allowed to stay well below the max. amount! It is a maximum, not a recommendation! (Point 4 of the CA. “Overview on Funding Opportunities” + Annex VII for details)
- Please discuss your proposed budget with your Funding Contact Point and make sure your project partners do so too, in order to be eligible.
- Total funding per country must not exceed 60 % of the total funding in order to achieve balanced partnerships and ensure that responsibility and risks are shared. → make sure the budget in your project is well distributed, according to the tasks the partners have to fulfil
- **Again: The total funding allocated to parties that are beneficiaries of the EUPAHW should be at most 35% of the total funding requested by the proposal consortium.**

Agenda

PARTNERING

- POST AN OFFER/REQUEST >
- LIST OF OFFERS/REQUESTS >

PARTNERING PLATFORM

This partnering tool helps you to find cooperation possibilities within the EUPAHW calls. It can be used in the following ways:

- **Post a Partner Offer/Request**

Please post an entry in the partnering tool, if you are looking for collaboration opportunities in project consortia and would like to offer your expertise. You are also welcome to make a post, if you already have a project idea and are looking for further partners that would like to join you/your consortium. Next to providing your contact details, you should give a brief description of your organization. It is important that you provide some key words describing your field of research/innovation and that you specify your interest and the experience, expertise and know-how you/your organization has to offer in relation to one of the listed call (sub)topics of EUPAHW. Please note: The second call has only one topic!

- **Search List of Partner Offers/Requests posted by others**

The database can be searched by call topics, keywords and all the other information provided by its users.

Please note:

There will be a plausibility check by the EUPAHW Call Secretariat for each of your entries. If the information given passes this plausibility check, which sometimes can take a few days, your request(s) will be published on the page "List of Partner Offers/Requests". Following the publication all information provided by you will be publicly available.

You can post an offer or request

or

See the list of offers/requests

IV. Partner Search Tool

- Post an offer or request
- Choose your topic, give keywords!
- Also important: Select your country, type of organisation
- Please be aware that your partner offer needs a manual check by Call Office and approval, so it can take a few hours until it is published → No need to submit several times

The application process consists of two separate and consecutive steps: Pre-proposal and full-proposal.

- **Pre-proposal:** This first step is now open and will be closed on **July 8th, 2024, 15:00 h (CEST)**.
- It is planned that the EUPAHW Evaluation Team will inform the project coordinators of the results of the first assessment step via e-mail by **mid of November 2024**. The coordinators of the selected pre-proposals will be invited to submit a full-proposal on behalf of their consortium.
- Eligible Pre-proposals will be evaluated and ranked by an international panel of experts. The EUPAHW Funders Consortium will select proposals for the second application step based on this ranking and the availability of funding.

If you have questions or any technical problems with your login or the platform, please don't hesitate to contact the EUPAHW Call Office under ptj-pahw@fz-juelich.de.

V. Submission Tool: Coordinator Registration

- Please register as a coordinator, if you want to coordinate a research proposal!
- You will just need your name and a working e-mail address
- You will get an email from the system with further info

WELCOME

Dear project coordinator,

please read the **Call Announcement** carefully before submitting the proposal on behalf of your consortium. In case of questions, remarks or uncertainties please do not hesitate to contact the EUPAHW Call Office under ptj-pahw@fz-juelich.de. Helpful documents can be found in the download area (left navigation bar). Only online applications via this submission tool will be accepted. Please provide the requested information at each section of this online submission tool. Completely filled proposals will be accepted for submission and subsequent eligibility check and evaluation. The template given in the left navigation bar is only for your information and convenience. You have to enter your data directly in the submission tool.

Please note that you have the possibility to submit your proposal multiple times until the submission deadline. **It is recommended to submit a preliminary version of the proposal well beforehand of the deadline.** Your preliminary proposal can be updated by submission of a new version. The old one will be substituted by the new version.

Make sure that partners participating in your proposal and requesting funding are eligible to their national/regional funding bodies. All consortium partners are strongly recommended to contact their respective National/Regional Contact Persons indicated in the Call Announcement/Annex I (left navigation bar) to check the budget, their eligibility, and to clarify any other issues before starting the proposal preparation. Please make sure that your partners login and tick the checkboxes about the "privacy policy" in their section, otherwise a submission will not be possible.

You as the coordinator of your research consortium have to complete and submit the proposal.

Your project partners cannot edit the proposal, except their section: address data and information about tasks within the project. However, they can download the present version of the proposal as compiled by you as coordinator by going to "Download Proposal".

Keep the deadline of **8th of July, 2024, 15:00 CEST**. We cannot accept any proposal after the deadline is reached.

Please remember that you can only be the coordinator of **one** application per call.

V. Submission platform: coordinator view

- After Login, you find a Menu on the left with all pages
- Please fill them all!
- Starting from the top makes sense.

- Press **Save**. If something is wrong, follow the error messages.

Declaration

National regulations *

I am aware of the national funding regulations (see Annex VII of call announcement).

Privacy Policy *

I have read the notes on privacy and accept them.

PIC

Please enter your PIC here. PIC (Participant Identification Code) is a 9-digit number that serves as a unique identifier for legal entities participating in European funding programmes. If you want to participate in a call for proposals with eSubmission, your organisation needs to be registered and have a PIC. For registration (if needed) and further information about PIC, please refer to the EU Funding and Tenders Portal * Max. 999999999

Please enter the 9-digit PIC.

EUPAHW Beneficiary

Please tick, if you are a beneficiary of the EUPAHW or not.

IMPORTANT INFO 1: Research Performing Organisations (RPOs) that are beneficiaries of the EUPAHW are allowed to be part of an applying consortium in cases defined in the Grant Agreement and Annex II of the Call Announcement. If you are a RPO and a beneficiary of the EUPAHW please check if you are allowed to participate!

IMPORTANT INFO 2: The total funding allocated to parties that are beneficiaries of the EUPAHW should be at most 35%. Please check the total percentage of all EUPAHW beneficiaries of your consortium in section "FINANCES"!

I am beneficiary of the EUPAHW *

yes
 no

V. Submission platform: Add Partner

- Add Partners or Associated Partners
- Pencil Symbol: Edit
- Waste Bin Symbol: Delete
- Envelope Symbol: Activate Partner. The system sends an email to the Partner
- The Partners have to log in and fill their part!!!

The screenshot shows the 'SUBMISSION PLATFORM' navigation menu on the left and the 'PARTNER LIST' main content area on the right. The 'PARTNER LIST' section contains two tables: 'LIST OF PARTNERS, INCLUDING THE PROJECT COORDINATOR:' and 'LIST OF ASSOCIATED PARTNERS:'. Both tables have columns for Organisation, Contact name, Organisation type, Nat. reg., and Country. Action icons (pencil, trash, envelope) are visible at the end of each row. A '+ Add a new partner' button is circled in red below the first table, and a '+ Add a new associated partner' button is circled in red below the second table. A blue information box is present below each table.

- EUPAHW_Call_Announcement_V1

WELCOME

Welcome Partner!

We strongly advise you to carefully read the **Call Announcement** before filling out your part of the proposal. This and other helpful documents can be found in the download area (left navigation bar). Only online applications via this submission tool will be accepted. The "template" in the download area is just for your information and convenience.

Please revise all information of your partner account's "profile" section including the description of your tasks within the project.

Please **upload the mandatory CV** and respect the page limit (max. 2 pages, 2 MB). Do not forget to check the declaration box for national regulations at the end of the section "Profile" as well as the declaration box for the notes on privacy.

Please provide the requested information until the submission deadline of **July 8th, 2024, 15:00 h (CEST)**. We cannot accept any proposal after the deadline is reached. Completely filled proposals will be accepted for submission and subsequent evaluation.

It is the responsibility of your project coordinator to complete all sections of the project proposal and to submit the proposal. As a partner you do not have access to the respective sections where to modify the proposal or the data of other partners in your research consortium. **You can download the present version of your proposal as compiled by your coordinator by going to "Download proposal"**.

All consortium partners are strongly advised to contact their respective National Contact Persons indicated in the Call Announcement/Annex I (left navigation bar) **to check the budget, their eligibility, and to clarify any other issue** before starting the proposal preparation.

A **webinar for applicants** will take place on **14th of May 2024 from 10:00-12:00 (CEST)**. Please find below the contact data for the webinar:

V. Submission platform: Keywords

- Enter 3-5 Keywords that describe your project.

The screenshot displays a web interface for a submission platform. On the left, there is a sidebar with two main sections: 'CONTACT' and 'SUBMISSION PLATFORM'. The 'CONTACT' section lists two individuals: Dr. Frank Hensgen and Dr. Diane Drescher-Petersen, each with a phone number and an email address. The 'SUBMISSION PLATFORM' section contains three menu items: 'WELCOME', 'ACCOUNT', and 'COORDINATOR', each with a right-pointing arrow. The main content area is titled 'KEYWORDS'. It features a 'Save' button at the top left and a note '* is required for submission' at the top right. Below this, there is a text input field containing 'a.s.d.f.g.'. A message below the field reads: 'Please enter 3 - 5 keywords (separate each keyword with the use of a comma, like for example Keyword 1, Keyword 2, Keyword 3). This field is required. *' and 'Maximum 5 keywords related to your project, separated by comma.' A second 'Save' button is located at the bottom of the form.

V. Submission platform: Project Summary

- Describe your project shortly in 2000 characters
- This might be published, if the proposal is selected and becomes a project

The screenshot displays the 'PROJECT SUMMARY' page in the EUP submission platform. On the left is a navigation menu with two main sections: 'CONTACT' and 'SUBMISSION PLATFORM'. The 'CONTACT' section lists Dr. Frank Hensgen (+49 2461 61 85443, ptj-pahw@fz-juelich.de) and Dr. Diane Drescher-Petersen (+49 2461 61 9454, ptj-pahw@fz-juelich.de). The 'SUBMISSION PLATFORM' section lists various menu items, with 'PROJECT SUMMARY' currently selected. The main content area is titled 'PROJECT SUMMARY' and contains a text input field with the instruction: 'Please enter here your project summary. The summary may be published.' A blue error message box states: 'This information is required for submission.' Below this is a 'Save' button. A character count indicates 'Max. 2000 characters'. The text area includes a rich text editor toolbar with icons for undo, redo, bold, italic, underline, link, unlink, list, and ordered list.

V. Submission platform: Background and State of the Art

- Describe Background and state of the Art.
- Describe how your project will advance science and go beyond the state of the Art
- 4000 Characters

The screenshot displays a web interface for a submission platform. On the left is a navigation menu with two main sections: 'CONTACT' and 'SUBMISSION PLATFORM'. The 'CONTACT' section lists Dr. Frank Hensgen and Dr. Diane Drescher-Petersen with their phone numbers and email addresses. The 'SUBMISSION PLATFORM' section contains a list of menu items: WELCOME, ACCOUNT, COORDINATOR, PARTNERS, PROJECT DATA, KEYWORDS, PROJECT SUMMARY, BACKGROUND AND STATE OF THE ART (which is currently selected), PROJECT DESCRIPTION, and ETHICAL ASSESSMENT.

The main content area is titled 'BACKGROUND AND STATE OF THE ART'. It contains a text input field with the following instructions: 'Please describe the background and state of the art in your research field including a brief statement how the project will contribute to scientific development and address gaps in existing knowledge (please avoid duplication with the Project Description)'. Below the instructions is a blue notification box stating 'This information is required for submission.' and a 'Save' button. The text area has a character limit of 'Max. 4000 characters' and includes a rich text editor toolbar with icons for undo, redo, bold, italic, underline, link, unlink, list, and ordered list. The text 'Background and State of the Art...' is visible in the input field.

V. Submission platform: Project Description

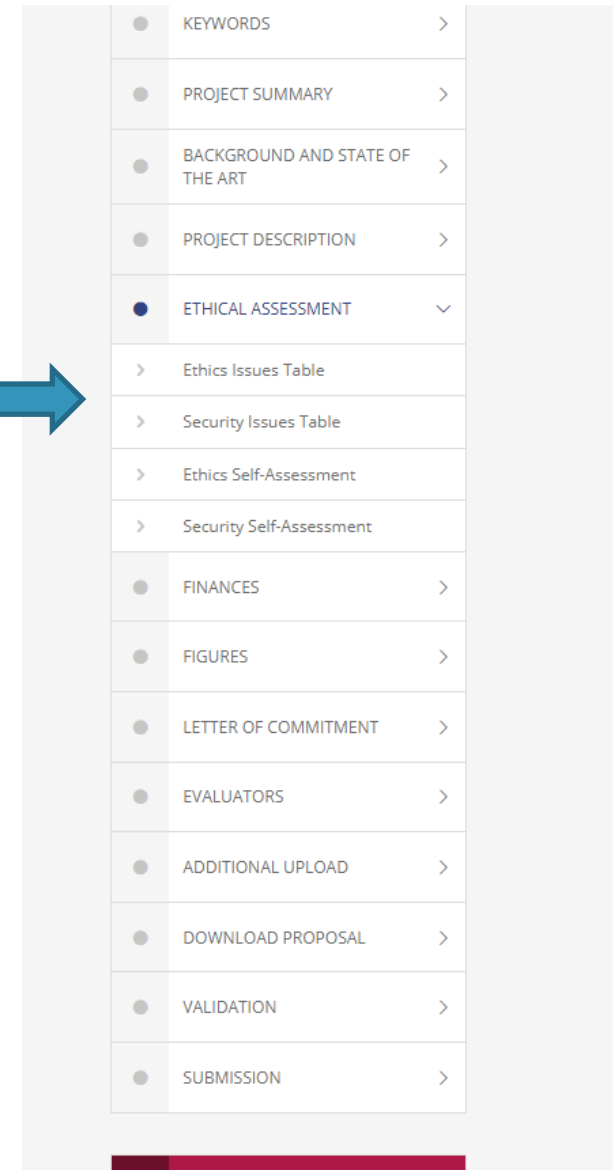

- Project Description;
- Please read description and stick to the points
- Work Packages!

The screenshot displays the submission platform interface. On the left, contact information for Dr. Frank Hensgen and Dr. Diane Drescher-Petersen is provided, including phone numbers and email addresses. Below this is a navigation menu with the following items: WELCOME, ACCOUNT, COORDINATOR, PARTNERS, PROJECT DATA, KEYWORDS, PROJECT SUMMARY, BACKGROUND AND STATE OF THE ART, PROJECT DESCRIPTION (highlighted), ETHICAL ASSESSMENT, FINANCES, and FIGURES. The main content area contains a text input field for the project description, with instructions and a list of requirements: specify the relevance to the call scope and topic, describe the scientific idea and formulate clear research objectives, explain the composition of the consortium, provide information on the project management and responsibilities of the project partners, provide a short description of the research activities and the organisation of work (work packages), and provide information on the involvement of private/non-academic/industrial partners. A 'Save' button is visible below the text area, and a character count indicates a maximum of 10000 characters. A rich text editor toolbar is also present.

V. Submission platform: Ethical Assessment

- Please fill the online forms for Ethical Assessment!
- There are 4 subpages 
- Please fill in the Ethics Self-Assessment and address potential concerns/issues. **Proposals may be rejected for funding on ethical grounds if they do not comply with European and/or national/regional legislation**

V. Submission platform: Finances

- There are two tables to be filled by the coordinator for all partners
- One table for requested funding
- One table for own contributions
- Associated Partner: Requested Funding is automatically filled with 0

OWN CONTRIBUTION

Please enter all values as numbers (0-9) with max. one decimal place in k€ (1k€ = 1000 €).

Organisation name	Personnel	Travel	Consumables / Equipment	Subcontracts	Other	Total Own Contribution
-------------------	-----------	--------	-------------------------	--------------	-------	------------------------

V. Submission platform: Figures and Letter of Commitment

Figures:

- You can add 3 Figures to your proposal. Please follow the description given in the tool.
- Max file size: 600px x 600px, 2MByte
- Allowed formats are jpg, png or gif

- For each associated partner a letter of commitment (LOC) must be uploaded. You may use the LOC template given in the download area. Please fill the document, sign it and upload as PDF document.

V. Submission platform: Evaluators and Additional Upload

Evaluators

- you can name up to three persons, who may NOT evaluate this proposal (due to conflict of interest)

Additional Document (For example list of References, another figure)

Here you may upload an additional document (pdf; 1 page, max 3 MB). Please make sure that it is understandable to which part of the application your optional document belongs to.

CALL DOCUMENTS

- Letter of commitment Template
- Pre-Proposal Template
- FUPAHW Call Announcement_V1

- Finally: Submission
- It will show „Unable to submit“ as long as there are errors. Please go to validation to see the errors.
- Get rid of the errors and try to submit again, until it works.

SUBMISSION

UNABLE TO SUBMIT

- SUBMISSION NOT POSSIBLE

Please click 'Validation' in the left side navigation, to get further information about what is missing for submission.

Agenda

I. Introduction to the Joint Call

II. EMA and EFSA remarks on the first call

III. Important conditions and requirements

IV. Partner Search Tool

V. How to submit a proposal via the submission tool

VI. Evaluation of proposals

VII. Q & A

VI. Evaluation

2 Step procedure through Online Evaluation Tool:

Step 1: Evaluation of Pre-proposals

Step 2: Evaluation of Full proposals

- Platform registration
 1. Expert receives personalized login data to the online evaluation tool from the ES;
 2. Upload signed Confidentiality Agreement to get access to the core data of the projects (abstract, consortium, title);
 3. Based on the core data, experts will be asked to declare whether they have a Col with assigned proposals.

VI. Evaluation Pre-Proposals

Excellence

- a) Scientific quality of the proposal
- b) Relevance of the project regarding the addressed topic and objectives of the call
- c) Novelty of the proposed research

Impact

- a) Potential impact of the expected results for future animal health and welfare.
- b) Added-value of transnational collaboration
- c) Potential for fostering a longer-term international network of researchers
- d) The involvement of private partners in a pre-proposal, where appropriate, will be considered as a value towards impact.

Quality and efficiency of the implementation

- a) Coherence and effectiveness of the work plan (for full-proposals: including appropriateness of the allocation of tasks, resources and time-frame)
- b) Complementarity of the participants in the consortium

VI. Evaluation Full-Proposals-1

Excellence

a)Scientific quality of the proposal:

-clarity of objectives

- credibility of the proposed approach and methodology

- expected progress beyond the state-of-the-art, innovation

competence and experience of participating research partners in the field(s) of the proposal

b)Relevance of the project to the addressed topic and objectives of the call.

c)Novelty of proposed research.

VI. Evaluation Full-Proposals-3

Impact

- a) Potential impact of the expected results for future animal health and welfare.
- b) Added-value of transnational collaboration: gathering a critical mass of biological material, sharing of resources (models, databases, etc.), harmonisation of data, sharing of specific know-how and/or innovative technologies, etc.
- c) Potential for fostering a longer term international network of researchers.
- d) Effectiveness of the proposed measures to exploit and disseminate the project results (including management of Intellectual Property Rights (IPR)), to communicate the project (Annex III Communication and Dissemination Plan), and to manage research data (Annex IV Data Management Plan).
- e) The involvement of private partners in a pre-proposal, where appropriate, will be considered as a value towards impact.
- f) If suitable and applicable for the project: education and training of early career scientists.

VI. Evaluation Full-Proposals-1

Quality and efficiency of the implementation

- a) Coherence and effectiveness of the work plan (including appropriateness of the allocation of tasks, resources and time-frame).
- b) Complementarity of the participants in the consortium.
- c) Appropriateness of the management structures and procedures, including risk and innovation management.
- d) Sustainability of research infrastructures initiated by the project.
- e) Budget and cost-effectiveness of the project (appropriate distribution of resources in relation to project activities, partners' responsibilities and time frame).
- f) Suitability of the data management and communication plans

VI. Evaluation

Peer review 1:

- Each pre and full proposal is reviewed by at least 3 evaluators from the

IEPE: International Evaluation Panel of Experts

- The assignment of the proposals to the experts is done by EO with support of the IEPE Chair and Co-Chair according to the relevant expertise of the reviewers
- Proposal **evaluations are** held first **remotely via the online evaluation tool.**
- For **each pre-proposal**, one IEPE member is assigned as **rapporteur**. The **rapporteur** drafts a **summary report** for each proposal reflecting the individual evaluation reports (strengths & weaknesses).
- Evaluation panels are held with assigned experts to discuss the proposals and reach a final decision

VI. Evaluation

Peer review 2:

- Proposal **evaluations are** held first **remotely via the online evaluation tool**.
- For **each pre-proposal**, one IEPE member is assigned as **rapporteur**. The **rapporteur** drafts a **summary report** for each proposal reflecting the individual evaluation reports (strengths & weaknesses).
- Evaluation panels are held with assigned experts to discuss the proposals and reach a final decision.

VI. Evaluation

The EO will communicate the evaluation reports of the proposals to the Principal Investigators, who will inform their respective partners.

REDRESS

This redress procedure only covers the procedural aspects of the evaluation and/or eligibility checks, including the national eligibility checks.

The redress will not question the scientific or technical judgement of appropriately qualified experts.

VI. Evaluation

As a result of the evaluation of **pre-proposals**;

- The EO will communicate the outcome of the invitation (recommendation for full proposal submission or rejection) to the Principal Investigators, who will inform their respective partners.

As a result of the evaluation of **full-proposals**;

a ranking list of the full proposals recommended for funding will be established.

- Based on the ranking list, the FO will take the final decision for national/regional funding, following general guiding principles :
 - Fund as many high-quality projects as possible;
 - Balanced geographical representation (e.g. for proposals with the same ranking).

VI. Evaluation

The EO will communicate the outcome of the funding recommendation procedure to the Principal Investigators, who will inform their respective partners.

Whole evaluation process is going to be observed by Independent Observers
